-

PROJECTS EXPERIENCE

[Instagram](#)

This project is a clone of Instagram. This is an awesome project a lot of original Instagram logic is in. You will find the same UI of the Instagram with light and night mode. You can follow others to get their posts and stories. You can create post, create story, give a like, make comment, make reply for the comment and you can delete all you create. Actually a lot of more logic there.

Stack: Next.js, TypeScript, TailwindCss, Firebase

[Imdb](#)

The project is a site for movies and series with introductions for movies and series. You can watch Full movies and series. you can search for specific movie, specific series or actor. And a lot more there.

Stack: Next.js, TypeScript, TailwindCss, TMDB API

[Razor Cars](#)

The project is a car sales company, and you can sell your car in addition to booking vehicles and applying for jobs.

Stack: React, Sass, Firebase
