Frontend developer

Summary

Versatile and highly skilled full-stack developer proficient in JavaScript, React, Node.js, Express, and MongoDB. Adept at architecting modern web applications with proficiency in the latest JavaScript stacks, I am excited about embracing new frameworks and solutions. Driven by a relentless pursuit of excellence in crafting dynamic user experiences, I continuously stay ahead of industry trends. Thriving in collaborative settings, I leverage my expertise to deliver innovative solutions that exceed expectations.

Experience

- MERN Developer (Part-time) | Kadully Organization | Oct 2023 - Present
    - Collaborated on the development of a feature-rich e-commerce multi-vendor website, utilizing the MERN stack.
    - Contributed to backend development using Node.js for server-side functionality and data management.

- Frontend Developer (Full-time) | 4z Software Co. | Jun 2023 - Nov 2023
    - Developed the development of a comprehensive washing web application using React, Tailwind CSS, Redux Toolkit, and TypeScript, inclusive of account and admin dashboards.
    - Designed and implemented a static webpage for an Internet distributor service, utilizing HTMl, jQuery, css and JavaScript template.
    - Contributed to the creation of an intuitive E-learning platform with an administrative dashboard, employing Next.js, Material UI, Redux Toolkit, and TypeScript.

- Frontend Developer (Full-time) | Smart Village Co. | Mar 2023 - Jun 2023
    - Contributed the development of the Mr. Buffalo dashboard in Qatar, utilizing Skote React and Redux Saga template to empower administrators in managing product inventory, purchases, shift schedules, and accessing comprehensive reports.
    - Designed and implemented an attendance dashboard using Skote React and Redux Saga template, with customizations using CSS, facilitating efficient employee tracking and streamlined onboarding processes for new hires.
    - Developed a user-friendly manual invoice system using React, SCSS, and Context, enabling accountants to generate and print invoices via a web application, with seamless data storage in an SQL database.

- MERN Developer (Freelance) | Freelance | Sep 2022 - Mar 2023
    - Executed the development of two static portfolio pages using Next.js to enhance SEO and Tailwind CSS, effectively showcasing clients' work and skills.
    - Developed an integrated e-commerce multi-vendor real-time application, ensuring seamless transactions and user experiences. Utilized Node.js, Express, and MongoDB for the backend, and React, Tailwind CSS, TypeScript, and Redux for the frontend web application. Additionally, developed a mobile app using React Native (Expo) to extend the platform's reach and accessibility.

Skills

- Frontend
  HTML, CSS, Sass, Bootstrap, Tailwind CSS, Mui, JavaScript, Jest, TypeScript, React, React Native, Next.js, Redux, Redux Toolkit, Redux Saga, Zustand, Refine.

- Backend
  Node.js, Express.js, MongoDB, Mongoose, Socket.IO, Firebase.
